“ My name is Mark Adams, Richard was my stepfather. We disagreed on things but time has a way of giving perspective. He put 100% into all he did. He would tell me, " I'll fix your wagon," and he did! He was a straight shooter. I know that he is in heaven with my little brother David catching up on old times. He has my love and respect

“ Not sure I ever had the pleasure of meeting Rich, but members of his family have been truly a blessing in my life through the years, I know they represent the finer qualities of this wonderful family, and I wish them blessings and prayers at this time in their life.
