“ Hello Gail,

Jim Kemp, bald/bearded, co-hart with you in Alzheimer/Luann, past years. We left St. Geo late May and didn't know of Chuck's passing till I caught his obituary while checking obituary for a friend in St. Geo.

You are my mentor for dementia care. Your sharing experiences with Chuck have given me an attitude that works for Linda and I. She is doing well, continuing on her path. We still have a good life together (59 years), and are blessed with some really good kids. Enjoy your convertible !!! you deserve it. We will return to St. Geo in December, and I'll try to find you then. (Luann) After watching the movie "The ?Story?", I have written Linda and my love story. Fun and therapeutic to share together.

Hope to connect with you later,

Jim
