

Mary Ann McDonnell MD

August 29, 1946 - November 16, 2013

Mary Ann McDonnell, MD died at home on Saturday, November 16, 2013. She was born on August 29, 1946 in Whitehall, Montana, the only child of George Arthur McDonnell and Eva Henrietta Pearson.

Mary Ann was a graduate of Utah School of Medicine (72) and worked in internal medicine and cardiovascular disease until her retirement in 2013. She was a dedicated physician and developed many close relationships with her patients and their families.

Mary Ann loved nature and all creatures large and small, and she had many of them.

She will be missed by all who were part of her circle of friends.

Private graveside services will take place at a later date.

Special thanks to the caring staff at Applegate Home Care and Hospice for all they did to make her comfortable.

If desired, donations in memory of Mary Ann McDonnell, MD can be made to the Dr. Volunteer Clinic in St. George, Utah.

“ Thanks to our dear friend, Dr. Mary Ann McDonnell. She made Zane well, and made sure he stayed that way - until we moved to SLC. We have missed her tender touch and warm friendship. Her advice was always followed and we knew she cared for us as an individual and close friend. Our love and sympathy to her family.

“ Dr. Mc Donnell was my husbands doctor for 25 years until she retired..We appreciated the care and friendship she had with us. We only found out out tonight from a neighbor of Mary Ann's passing. We r in shock and deeply saddened that we were not able to say goodbye. RIP Mary Ann.

“ *Dr. McDonnell was a great person as well as a great doctor. She knew her patients down to the slightest detail even when we woke her in the middle of the night, and she always gave good advice.*

She was one of the first doctors I met when I came to St. George to work in the ER and even though she intimidated me at first, I came to trust her and to know she had her patients' best interests at heart.

RIP Mary Ann. Condolences to your loved ones.

“ *I knew Mary Ann back in the early 90's when she cared for several disabled children from Tiny Tots Care center. She was a breath of fresh air and very knowledgable. She gave great care to the little ones and we were thankful for her in their lives. What a difference she made!*

“ Dr. McDonnell, was the one that found out that our son had Marfan, and got him on the right track, she also was my mother's and her husbands doctor. I know that she like Indian things, because my mother gave her, among other things a Indian Metat that I know she enjoyed when she told me about it.

“ Dr. Mary Ann was my parents and my husbands Doctor. I loved visiting with her when they had an appointment. She knew the names of out goats and ask about them. She shared stories of farming/ranching and having animals. I am so sorry I did not take the time to tell her how much I appreciated her care for my loved ones and her taking time to visit with me. My condolences to her loved ones and to her animals.

*With Gratitude,
Barbara Cottam Brown*

“ Mary Ann McDonnell was my doctor for a number of years. I appreciated her medical knowledge and skills as a doctor. Even more, I appreciated her personal concern for me as a person as well as her patient. She always took time to visit with me on a personal basis during my appointments. I continue to miss her and pray she may now rest in peace.

*With loving respect,
Mary Carney, St. George, Utah*

Dr McDonnell was my doctor for more than twenty years. I was probably one of the first patients she had when she came here. She always made me feel like a friend as well as a patient. When I was hospitalized for cancer, she and her staff sent me a card which they had all signed. It was very much appreciated. I already miss Dr. McDonnell, but I am grateful for the care and concern that she showed me.
