“ I love you Tyla Walton. You are like a sister to me and I remember our adventures together and how much fun we had. i especially remember how much you love the science workshop we went to up in the Tetons of Wyoming. I remember your friendship with the single buffalo that was there and how much you love it. I will miss you so much and often think of our times together. You are at peace now and God and Jesus will take good care of you my sweet sister friend. Love you Vicki and Arthur S.
